

# 9th ExYLENT WORKSHOP

An Exciting Journey into the World of Science and Engineering  
10 - 14 July 2017

EXYLENT (EXploring Young LEaders' Natural Talent) is an Exclusive weeklong workshop on 'Innovation and Creativity'. Through EXYLENT, we try to instill the interest in science and technology while focusing on bringing out the creativity and hidden talents in our participants. EXYLENT exposes the young minds to various challenges thus enhancing their intellectual and analytical abilities, while improving students' analytical and problem solving skills.

This workshop is also designed to expose students to multiple ICT (Information and Communication Technology) disciplines thus allowing them to find their area of interest that is vital in choosing a career path.

EXYLENT is a fun and exciting experience for the young entrants by learning via the use of robotics.

**Limited Seats!**

**Registration is open  
until 4 July 2017**

The workshop comprises:

- ICT & Engineering Fundamentals
- Robot Construction Basics
- Robotic Programming and Communication
- Robot building for real time problem solving
- Robotic Competition
- Guest Lectures and visit to industry

**Fee: Rs. 4,000/- Only**

**Eligibility:**

Grade 6 to FSC /  
"O-A" level with  
minimum of 70%  
marks
