

Job Description: RA - AI Related Project

Positions (01) : Title: AI Engineer

Location: Islamabad, Pakistan

Duration: 8 months (April – Sep 2024)

Last date for Apply: 3 April 2024

Job Summary:

We are looking for two highly motivated interns with a background in Deep Learning/AI to work on an exciting industry-funded AI related project. The successful candidates will have the opportunity to work alongside a team of experts to develop and implement state-of-the-art algorithms and models for solving real-world problems. The interns will also be required to align their MS thesis with the project.

Responsibilities:

- Develop, train and evaluate deep learning models for various tasks
- Implement and optimize existing algorithms
- Analyze data and provide insights for decision making
- Collaborate with team members and share findings

Requirements:

- Must be enrolled in a Master's program in Computer Science/ EE or a related field
- Strong knowledge of machine learning concepts and techniques
- Experience in programming languages such as Python, Matlab or R
- Excellent problem-solving skills
- Good communication skills
- Familiarity with deep learning frameworks such as Tensorflow, Keras or PyTorch is a plus

Additional Information:

The selected interns will get an opportunity to work on a real industrial problem with a team of experts. This is an industry-funded project and provides a unique opportunity to work on real-world problems in a supportive and collaborative environment.

How to Apply:

Interested candidates should send their CV to projectposition@seecs.edu.pk. Please mention the position title in the subject line of the email. Only shortlisted candidates will be contacted for interviews.
